

Submitter:

Chris Olsen

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This bill will hurt honest law abiding Oregonians. Criminals circumvent the laws we put in place anyways and this bill will do nothing to prevent criminals from illegally obtaining firearms. There will be no measurable effect on public safety. What this will do is criminalize items commonly used by law abiding citizens and create financial barriers for good people to exercise their rights. We need our leadership focused on solving the crisis of mental health in our state not creating barriers for hard working people. Oregon gun owners want to be allies in the fight to solve our mental health crisis, not fighting you for their constitutional rights. Let's work together.
