HB4134

I am an Alaskan resident who vacations in Oregon several times per year. I come to Oregon to see the old growth forests, the wildlife, and the ocean with all the fantastic marine species. I would gladly pay extra on my hotel bill to ensure that Oregon continues to have healthy ecosystems with thriving animal populations both on land and sea. Please pass HB 4134. It's good for Oregon's economy because it supports the reasons why visitors like myself come to Oregon.
