Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

From 82 years under my belt and decades of wildlife interactions, my conclusion is that our wildlife are doing quite well, in part, thanks to the good work of ODFW.

I don't believe a new tax ... that the proponents have identified purportedly to be paid by out-of-state guests, will be anything more than a pathway for extreme animal interests to ask for more staffing, money, and support to implement un-needed wildlife enhancement projects. Oregon has become one of the highest taxed states in the country and this proposal will just add to that while resulting in no measurable improvements.

please don't support this foolish proposal!

Alan Amoth
