HB4134

I support the "1.25% for Wildlife" bill (HB 4134). It is a commonsense and logical solution that would help safeguard Oregon's wildlife for many years to come.

By adding a 1.25% increase to the state's transient lodging tax, this bill will dedicate funding for wildlife coexistence efforts that reduce retaliatory killing (including wolves), and strengthen anti-poaching efforts to help reduce illegal wildlife killings. ?
