HB4134

I urge support of this bill. A small transient lodging tax for visitors is well worth it to provide for much needed support for wildlife which visitors and Oregonians can enjoy for now and the future. Wildlife needs the improved habitat restoration, wildlife connectivity improvements, and help with teaching citizens how to co-exist in ways less destructive to wildlife. Jobs can be created in restoration, public awareness campaigns, and creating connectivity corridors. It is time to pass this bill!
