Measure, Appointment or Topic:	HB4145

The retrospective application of the magazine ban to 2022 is unconstitutional. It also looks like this bill is putting a large economic burden in order to exercise our Second Amendment rights along the state constitution.

Article 1, Section 27 of the Oregon Constitution guarantees the right to bear arms for self-defense and state defense, while ensuring military subordination to civil power. It states: "The people shall have the right to bear arms for the defence [sic] of themselves, and the State, but the Military shall be kept in strict subordination to the civil power".
