HB4145

Strongly oppose this measure. BM 114 has not been decided in court and attempting to enact portions of it in advance is a further waste of time and my tax dollars. Stop encumbering legal gun owners with unconstitutional measures and pursue the criminals instead.

Nothing pertaining to BM 114 should be considered until that ridiculous measure has been fully adjudicated and declared to be the unconstitutional abomination it truly is. Pandering to former peace officers is a slap in the face to legal gun owners.
