Measure, Appointment or Topic:

HB4145

To whom it may concern,

This bill serves to price out poor and marginalized individuals from exercising their second amendment rights.

Measure 114 as it stands bans all modern magazines and will die in the courts sooner or later, so any more work done and money spent will simply be wasted. Let this bill and measure die as it should. If you want to prevent suicides, have a mandatory 72 hour waiting period do something about the dismal state of mental healthcare in this state, and help fight to reduce the stigma about talking about your problems.

This bill does nothing to support mental health, reduce stigma, or reduce crime. All it does is serve to further criminalize and punish some of the most law abiding members of our society. I myself have done everything I can to be a better citizen and man now that I am a gun owner.

I love this state and what we stand for and I want it to continue to be a place where everyone can come and be themselves and exercise their rights regardless of their identity or background. I hope you will join me in that mission.

Thank you for your time,
Sebastian Rajala
