House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Increasing fees by an amount more than the cost of living increase is NOT sustainable. Many citizens are having difficulty paying for food and housing and may need a gun for self defense. It seems our government is looking for many places to bring in additional revenue rather than finding where cut backs in spending can be made, safely. All of us who have limited income have had to cut back. It is sneaky and unfair to raise fees more than the cost of living.
