House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

It is concerning that this seems to have been rushed into the session... this looks like a poor attempt to bandaid over Measure 114, which barely passed in the first place... this is such a low-quality patchwork, combined with the "Marion county" provision, huge increases in taxes and fees -- how was this ever introduced? Did an intern write this? Oregonians deserve better, and legislators should be respecting the constitutional rights of citizens. Please vote this down along with all the other sneaky tax increases being introduced. Is Oregon just copying every pejorative law that California dreams up now?
