Philip Ratcliff

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Supported by over 70 organizations in a diverse statewide coalition, 1.25% for Wildlife would establish a crucial funding source for the Oregon Department of Fish and Wildlife to implement our state's wildlife action plan and provide life-saving support for 320 imperiled native species. The Endangered Species Act is being neutered at the federal level. It's up to the states to take the initiative and help their native wildlife species. HB 4134 is a very good way to help.
