Makenzie Smith-Nelson

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Oregon will not be the Oregon we all know and love if we do not protect our wildlife. As someone who moved to Oregon from out of state, I have never experienced such a beautiful place before. The diversity of the animals, vegetation, and landscapes are what make this place amazing. If committing 1.25% of the funding is all it takes to conserve such a beautiful state then please do it. Make Oregon a great place to live for all, whether human or animal.
