HB4125

There is no legitimate reason for stealing the kicker from Oregonians.... Only illegitimate reasons.

Taking money from those who earned it and giving it to illegals, businesses friendly to the administration, gays from California, or whatever the scheme may be, is directly opposed to the spirit with which the kicker was enacted originally. The original intent was that if the tax payers put in more money than they needed to, the tax payers get their money returned. Very simple.

Yet, the Democrats seem to think tax payers don't deserve to have their money returned. Democrats want to take that money and use it to pay for Oregon's mistakes, frivolous law suits against the federal government, and Tina Kotek's drunk wifey's salary.

No. No. No. Do not steal from us anymore than you already do. Oppose this measure and put a stop to the constant threat of taking what doesn't belong to the state government, but belongs to the citizens..
