Measure, Appointment or Topic:	HB4134

I would like to voice my support for measure HB 4134 with a focus on our South Eastern Oregon public lands and their value in our personal lives and in the State of Oregon.

I am a 5th generation Eastern Oregonian in my 7th decade of life, and have witnesses great change and now threats against these beautiful lands. The mountains and deserts of Oregon are our heritage to protect for future generations and to keep Oregon the special place of wild beauty and wonder it has always been. These lands draw visitors from all over the World to recreate and see the untouched areas full of healthy wildlife, streams and geograohical wonders.

To protect this special place, we need the States support and oversight, and local stewardship to save it for the future generations, and to insure its value in Oregon Revenues by drawing tourism from all over the World to this area.

These unique and unusual geographical places are a huge reason tourists come to to this area. Along with the remoteness, beauty, wildlife and dark sky attributes. The World class fly fishing and hunting and boating on the largest reservoir in Oregon, al9ng with rafting, hiking and many other revenue generating activities.

Please pass Measure HB 4134

Help us advocate for and keep working to protect the Owyhee Canyons, Alford Desert, Steens Mountains, Wildlife preserves and the many more wonders of Southeastern Oregon.

Respectfully submitted
