HB4134

We cannot have a strong tourism economy without healthy ecosystems. Protecting fish, wildlife, and habitats is not separate from economic vitality—it is foundational to it. Investing in conservation now supports local communities and long-term economic resilience.

State leadership is especially important right now. As federal funding and protections for wildlife and habitats are reduced, Oregon has an opportunity—and a responsibility—to step forward and invest in its natural legacy.

HB 4134 would make Oregon a national leader. By passing this bill, Oregon can set an example for how states can proactively protect biodiversity, reduce wildfire risk, support wildlife stewardship, and sustain healthy ecosystems.
