Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

No one 4145. This measure would cause undue financial strain on legal, lawful gun owners. It is also unconstitutional. This is nothing but a hidden tax on the people. There is also no current enforcement mechanism for licensing and doesn't seem to be one in the foreseeable future. A right delayed is a right denied. The second amendment wasn't written for hunting or sport. It was written to protect the citizens from a tyrannical government as it is a RIGHT granted by GOD. It is not a permission slip from the government.
