Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

My wife and I urge you to support HB 4134. Oregon's wildlife is a huge part of its economy, spurring tourism related to all outdoor activity in our forests and grasslands. This tourism includes sightseeing, hiking, fishing, hunting, photography, and more. People come to Oregon in large part to experience the outdoors, largely because of our wild lands and wildlife. Protecting their habitat and numbers is an economic issue.
