HB4127

Somewhere else in the Capitol, there is a committee trying to figure out how to cut back on

programs because supposedly there is a budget shortfall. Also in the Capitol there is another committee wanting to take back the kicker because there is not enough money.

And here you are considering spending money on programs where children who are not old enough to make their own decisions wisely, mutilate their bodies, find out later that's not what they wanted and SUE the state!

Just like the transportation bill, we can testify in opposition until hell freezes over, and you will pass it anyway!
