Dear Chair and Committee-

I urge you to oppose this bill. The fact that Measure 114 is still being decided at the Supreme Court means that this bill is an attempt to shove more legislation at legal gun owners. This attempt, repeatedly ramming legislation forward on unconstitutional legislation on legal gun owners who are exercising a constitutional right.

The many added fees and rules to exercise a constitutional right are ridiculous and downright wrong! The very fact that the rules structure includes different rules for different people violates the very essence of the constitution as well.

Adding and doubling fees hits those who can least afford it the most.

Please oppose this bill and listen to We the people!
