

Submitter:

Cheryl Eby

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

This is our money. It does not belong to our overstuffed government trying to confiscate it to grow government even more. My suggestion to all of you is to start cutting government massively (we have far too much that do far too little at our expense) and cut spending. Let's set an example to other states and congress that smaller, more efficient government is best. And return our money to us. We need it, and deserve it, far more than you do.
