

Submitter:

Susan Conner

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

My name is Susan Conner and I am a lifelong resident of Bend, Oregon. I am writing to support this bill that supports Oregon wildlife and the legacy of stewardship in our state. The health of our ecosystems and the health of our economy are inseparable, and during this time, when all things environmental are under attack, we need to do everything we can as Oregonians to safeguard our wildlife.

I own a bike shop in Bend, and trust me when I say that the health of the outdoors is critical to my business. People don't come to Oregon to be inside--they come to enjoy our healthy public lands, and that is what puts bread on our table. This bill is an opportunity to do not only what is right ethically, but what supports the long-term health of our state economy. It's a win for wildlife and it's a win for Oregonians and visitors here. Please support.
