Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

To Whom it May Concern,

I am writing to encourage you to raise transient lodging taxes to benefit critical habitat restoration and preservation. In general I do not support tax increases, but in this specific case I think it makes sense. Critical habitat restoration is essential to our states future health. Economically it makes sense as well since it supports tourism, commercial fishing, hunting and other economic drivers.

Thanks for your consideration,

Calan Taylor
