Exempting retired officers from these rules is a slap in the face to law abiding citizens across the state. The rule even exempts these retired CIVILIANS from the large capacity magazine ban EVEN WHEN IT HAS NOTHING TO DO WITH THEIR JOB. So a civilian retired officer in the state of Oregon can possess these large capacity magazines just because they want to? Stop making exceptions for law enforcement, ESPECIALLY WHEN IT IS NOT PART OF THEIR OFFICIAL DUTIES! We need better gun control measures...but carving out exceptions is only going to further the divide that is spanning between the police and the populace. Do better.
