HB4134

As an Oregon resident, I urge you to support the 1.25% for Wildlife bill (HB 4134) to help conserve Oregon's most vulnerable wildlife.

All Oregon wildlife should be supported whether predators or prey. Together their existence maintains a balance in nature that we should not artificially alter through bounty programs to reduce # of wolves for example to preserve elk or deer for hunters. Nature has a natural ability to create that balance.

People interfering with what has worked before to favor, as can be seen by climate change. Animals have had to adapt to the many ways we've destroyed environments. When will we learn to just leave our wildlife alone?
