House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Stop with the violations already. Measure 114 is a failure from day one. It was misrepresented to the voters and passed by a tiny majority vote as the way it was written made it sound different. Stop wasting my tax money on this nonsense to then turn around and spend more of my tax money fighting it in court. Focus on the real issues in the short session, the drug epidemic mental health crisis and balancing the budget. It's time to start listening to your constituents over 90% percent of people are opposing this nonsense sense and you keep pushing it forward. My guess is a lot of you are gonna lose control in the next election. Figure it out! The people aren't behind you anymore.
