Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

I vehemently OPPOSE this bill, as well as measure 114!

They do nothing to actually save lives, for what the creators and voters of them think or intend to do. If someone wants to use a firearm for nefarious purposes, they will do so without thought or restriction from these laws. Only people this restricts are law abiding citizens who follow the laws, which is well over 99% of Oregon firearm owners and enthusiasts.

I have a question for people who support this bill, if this is an emergency to the point it restricts citizens firearm purchasing ability, use of magazines with more than 10 rounds which limits our self defense, takes away citizens ability for due process by only allowing opposition in Marion county courts, why has there been no mass shootings before measure 114 was first introduced in 2022?

This bill should not be allowed!
