Measure, Appointment or Topic:	HB4125

Once again, the Oregon legislators feel they know best when it comes to the kicker money that the people of Oregon have already said over and over that we want to to come back to the taxpayers. This should not keep coming up on different ways to take back money that is due the taxpayers. If you want to take the kicker then you better put it up for a vote of the people and I would bet we would vote any amendment to the Oregon Constitution with regards to taking our kicker away down. The lack of accountability in this state with elected officials is out of control. Leave our kicker money alone and do what we elected you to do. I would start by balancing the budget and doing away with all these free handout programs that seem to attract every deadbeat loser to this state that we the taxpayers keep getting taxed to help but the problem never goes away just gets worse and worse! I absolutely oppose any Bill that will take any portion of the kicker away from the Oregon taxpayer!

Thank you.
