

Dear Chair Nathanson, Vice Chairs Reschke and Walters and members of the House Revenue Committee

Re: Support of HB 4125

As I look at my wishes for this legislative session, I reflect on the topics that touch my heart and community deeply. And I find myself wanting the necessary funding:

- For healthcare
- For education
- For housing
- For climate mitigation
- For infrastructure
- For transportation - including buses, walking, and bikes
- For those with disabilities

I could go on and on. Working with children in a homeless shelter brings so many of these needs to my mind everyday. We desperately need comprehensive revenue reform. But, meanwhile, the kicker takes away possible funding for any and all of these important areas.

And it will give me back way less than the cost of a daily cup of coffee.

HB 4125 is a brilliant compromise. I urge your support

Carol Greenough, Ph.D.
