

Submitter: Daniel Diman

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4145

Financial and procedural barriers to lawful gun ownership do not serve the interests of the people of Oregon. Irrespective of any flaws of Measure 114, these further restrictions and procedures do not improve the ballot measure but instead compound some of its greatest weaknesses, making explicit the outsized delay and cost introduced by the measure. Please have open debate about this measure, and do not allow it to advance. Thank you!
