

Submitter: Adam Breindel  
On Behalf Of:  
Committee: Senate Committee On Early Childhood and Behavioral Health  
Measure, Appointment or SB1573  
Topic:

I live across from a preschool in downtown Portland and frequently find discarded paraphernalia in the vicinity. Just yesterday (Feb 2), I found a broken, used crack pipe on the sidewalk about 100 yards from the school. I wondered whether this pipe had been distributed by a "harm reduction" program and whether anyone was concerned with "reducing harm" to the children playing nearby. This bill is a small step but in the correct direct and I support its passage.
