RE: HB 4134  
SUPPORT

Dear Chair Nathanson, Vice-chairs Reschke and Walters, and members of the Committee,

I'm writing to express my strong support for HB 4134, and urge you to vote YES. HB 4134 is historic legislation that would protect our wildlife, safeguard communities, and strengthen our tourism economy that depends on a healthy environment, without increasing my cost of living.

This bill protects wildlife and human health. The health of people and our environment is inextricably linked. Keeping nature healthy keeps people healthy. Projects funded by HB 4134 will help protect and clean drinking water, support wild pollinators that are essential to our food and natural systems, and maintain species like bats that help control insect populations. These investments aren't just an investment in our environment; they're an investment in community health.

HB 4134 protects our fish, wildlife, and way of life. Oregon has a list of over 300 vulnerable species that require intervention. HB 4134 invests in conserving and restoring the habitat these species rely upon, while also supporting Oregonians' livelihoods, outdoor recreation, and quality of life. Communities in Oregon, especially our rural communities, rely on thriving, healthy environments that support our native wildlife.

My favorite Oregon wildlife species are sea otters, tufted puffins, and sage grouse, and they are all in peril. The funding from HB 4134 would be a significant investment in protecting these and other wildlife to sustain their populations and Oregon's economy at the same time.

HB 4134 will prevent endangered species conflicts. Recovering a species once it is imperiled enough to warrant listing under the state and federal Endangered Species Act is costly and can create a lot of conflict. By investing in proactive conservation, HB 4134 can avoid costly emergency intervention and conflicts down the road. It is an effective and fiscally responsible policy that will help wildlife and communities now and in the future.

Oregon's Department of Fish and Wildlife lacks stable funding, especially for non-

game species. This bill changes that, addressing an issue that is plaguing state wildlife agencies across the country. This bill, supported by a diverse and bipartisan coalition, presents a historic policy opportunity.

HB 4134 strengthens our tourism and outdoor economy, without raising costs for residents. Because HB 4134 is funded by an increase in the transient lodging tax, a majority of the funding will not come from Oregon residents. Outdoor recreation is a \$16 billion industry in Oregon. We can keep that industry growing and thriving by investing in the wildlife and natural spaces that attract visitors, all while still keeping Oregon's statewide lodging tax one of the lowest in the nation.

I support HB 4134 and would gladly pay a few dollars more on my hotel bill to protect Oregon's natural legacy. I urge you to support this bill as well.

Thank you,
