

Submitter: Robert Nimmo

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4145

House Bill 4145 is a vital step forward to improving public safety and health. It can help reduce suicide rates using guns, it will prevent large capacity magazines (which have no practical use for gun owners) from being used.

Most importantly it will allow for the completion of background checks for gun sales, over riding the current arbitrary 3 day limitation.

Let's get this done !
