HB4134

Please support HB 4134, also known as the 1.25% Wildlife Bill as if it passed, it would raise the transient tax on nightly overnight stays in the state by 1.25%. Number one, this bill is Bipartisan. It also supports vulnerable Oregon wildlife that don't regularly receive funding priorities on their own merit. In addition, this bill helps to reduce wildlife/human contacts but has proposes sound scientific solutions when those wildlife/human interactions occur.
