I hereby oppose the IP114 where unnecessary restrictions have been placed on law abiding gun owners. Additionally, the cost of a permit, and necessary training are above what is required for a concealed carry license. The fees alone will make gun ownership an impossibility for people of lower income.

This was sold to the public as necessary due to requiring background checks. Unfortunately, it failed to mention that background checks are already required for all gun purchases in the state.

The gun crimes in Oregon have gone down since IP114 was voted into law.
