Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I oppose HB 4145. This does nothing to make citizens of the state safer. Criminals don't usually buy a gun lawfully. The current process is not always very timely either. We need more law enforcement in our communities and better mental health help. Instead of beating a dead horse with more gun laws that infringe on lawful citizens, why not address the reason a person is using the gun unlawfully or to self harm.
