House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Once again, our elected people are trying to poorly infringe on our 2nd amendment rights. This bill does nothing for community safety. If you want to increase public safety arrest those that are committing crimes and keep them in jail and out of the public. This bill is much like the transportation bill, overwhelming disliked. I'm looking forward to my Senator Mark Meek to hold a town hall so he can explain why he is always voting against what his constituents want. Clearly, we are at a point that our Oregon Government is at war with the citizens of the state. November is coming and those that continue to do crap like this will be out of a job.
