

Submitter:	jim jagger
On Behalf Of:	LEVO
Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

My name is Jim Jagger. I was for almost 50 years a practicing attorney in Eugene, Oregon. I have been a life long resident of Oregon. I am one of the two primary drafters of Measure 114, the other being Liz McKanna, so I understand the content of this Law and the proposal> I expected more people to oppose than support in the submissions. Then gun group is a minority, ie Measure 114 passed in voting, but they are very vocal. HB4415 should be passed as early as possible. It responds to various requests within the community and is satisfactory as a whole. This measure will help get this law operational and start saving lives. Saving lives from gun violence directed at the most vulnerable, children, elderly, those who are temporarily depressed and thinking about self harm from gun assisted suicide. Please pass this HB 4415.
