House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Dear House Committee on Revenue,

As a rural Oregon resident, I urge you to support HB 4134 to help conserve our wildlife. This bill will allow for solutions that reduce conflicts and promote coexistence, benefiting communities and wildlife alike. I moved here from the midwest a generation ago to experience Oregon's wildlife and live in a state that protects its natural resources.

The majority of those who pay the tax are from other states and countries. To keep these visitors coming to our beautiful state, we need to protect it. This is an investment in our state's future. Oregon will still have the third lowest state lodging tax rate.

Thank you for your support of HB 4134!
