

Submitter:

Emily Doumerc

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

The provisions in Measure 114 provide some of the most research-based, proven tools for preventing firearm tragedies. With 80% of Oregon's firearm deaths being firearm suicides, that critical time and space from a moment of crisis and the ability to purchase a firearm are crucial. It has been four long years since voters passed Measure 114. It is TIME for it to be implemented as soon as possible.
