Measure, Appointment or HB4153  
Topic:

I support HB4153 because small farms are core to Oregon. Not only for the quality of food they provide, but the opportunity to connect with our community; something we all desperately need. It's extremely special to connect with the farmers, the people who work extremely hard to provide quality food. Something that is dying in America. Food is extremely special in that it's more than just sustenance. Food is a gift that brings us together.
