Marilyn OMalley

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

It's essential for the survival of the planet and the future of our children, grandchildren and future generations, to preserve Wild Life, which entails preserving Wild Lands and not polluting the air and water. Short-term financial gain versus long-term destruction is not acceptable, and in fact it's disgusting and obscene, given the degree of destruction and the precarious state of life on Earth. I think even more funds should be allotted to Wild Llife. How can anybody look kids in the eye if they don't do everything they can for their future on a livable planet where they can enjoy Nature as we did?
