Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Please support HB 4145. Studies have found that states with a permit to purchase law had fewer crime guns recovered both by police within the state and by police in other states. Implementing M114 will not just save lives through suicide prevention, but also through reduced crime guns on the streets of our cities. Portland has made great strides with homicide reduction, but it's not enough. HB 4145 will help reduce gun tragedies in our city. Thank you for supporting this life saving measure.
