

Submitter: Mikaela White
On Behalf Of:
Committee: House Committee On Behavioral Health
Measure, Appointment or Topic: HB4083

I, Mikaela White, oppose HB 4083 bill as social workers who pursue their License Clinical Social Work licensure are required to have their Clinical Social Work Associate certification with already having the requirement of supervision with aN LCSW. Social workers who chose to pursue to be in the mental health profession should have the option to do additional supervision not including LCSW supervision. However, requiring ALL social workers to be supervised by other disciplines should not be considered.
