

Submitter:	Anne Cuthbert
On Behalf Of:	Beyond Eating Recovery
Committee:	House Committee On Behavioral Health
Measure, Appointment or Topic:	HB4028

I am an owner of a group practice specializing in eating disorders. We have an office in Portland, OR and serve many Oregonians. We are a small business that struggles monthly to pay the bills and the providers who support clients in recovery and improved health. Every year, our bills increase and our income either remains the same or drops. With the fear of audits looming larger than ever, we fear the ability of our business to survive. If an audit bankrupted us, our clients, approximately 250, would need to find a new provider, which would be very difficult to do. We need change and we need it now. Please approve this bill! Oregonians need it!
