

Submitter:

David Sanders

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Gun Violence has become the number 1 cause of death among children and so I support HB 4145 as it well past time to implement Measure 114 into an active law. The provisions of HB 4145 seem reasonable steps to take to address opponents concerns about Measure 114.

They keep the permit applicant's data private, allow a longer time period to investigate the applicant and increases the fee to offset law enforcement's burden to process the influx of permits and provide some alternatives for training classes. These modifications and Measure 114 itself do NOT infringe on the right of trained citizens to carry firearms - as long as they are not large-capacity crowd killers. Please pass this bill.
