Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4138

Hello,

I support this bill. It is not safe for federal agents or law enforcement to have their faces or identities concealed due to lack of accountability. Obscuring their identity allows them to commit crimes and violate constitutional rights with impunity. I am a mother and I live in fear that someone with their face hidden will claim to be a federal agent and abduct or hurt myself or my children. It would be very easy for someone to purchase items to impersonate federal agents on Amazon and with their face obscured it would make it very difficult to identify them or bring them to justice. This is a public safety issue.

Respectfully,

Roxanne Cloutier - Sandy, Oregon, 97055
