

LETTER TO THE OREGON JOINT WAYS AND MEANS COMMITTEE

We, the undersigned, support and urge the continued and planned funding for the grant-in-aid funds for the Oregon FFA Association, Summer Agricultural Education Grants, and the Career & Technical Education (CTE) Secondary Pathways Grants.

The grant-in-aid for the Oregon FFA Association has grown FFA membership to more than 15,000 students, with participation in statewide FFA events increasing by over 50 percent in the past six years. This growth reflects Oregon's diverse student population, including significant gains among historically underrepresented groups.

Secondly, the Summer Agricultural Education grant program is increasing face-to-face interaction, mentoring, advising, and learning for many students between school years. Agricultural education programs maximize their influence and connection with students year-round, and this grant program has expanded that opportunity. Students in Oregon have documented over 600,000 hours yearly in their Supervised Agricultural Experience (SAE) projects, entrepreneurial and placement activities that provide crucial experiential learning opportunities.

Finally, the CTE Secondary Pathways Grants are one of the most effective supports for rigorous, impactful CTE programs in our schools. When distributed to the programs with true pathways that engage students, these dollars have allowed for modernization, expansion, and sustainability. In all of Oregon's work in growing CTE, these grants have reached more students and programs than any other.

In times of decision, we must look at what investments will make the most impact. The dollars that support FFA, Ag Education, and CTE are just a small part of these budget, but have an outsized impact for students and families across Oregon. We urge you to ensure they continue to have this positive result.

Respectfully submitted,

The undersigned
