HB4145

I am strongly opposed to HB 4145.

It literally makes NO SENSE.

#1) Doubling the wait time from 30 days to 60 Days to EXERCISE A CONSTITUTIONAL RIGHT ? This is unacceptable and I cant even imagine how this can be considered constitutional.

This CLEARLY Puts undue burden on any law abiding individual to exercise their rights.

#2) Raising the Fee for permits to \$150. That is ridiculous. This puts another undue burden on legal gun owners to, again, exercise their LEGAL RIGHTS. This will put burden on lower income individuals and is not necessary at all.

#3) Moving the Permit Requirement Out to 1/2028. this is ridiculous. First of all, the PERMIT itself is unconstitutional IMO, and the current process is not even possible or feasible.

A background check is "REASONABLE" as long as it is immediate, Inexpensive and does not place undue burden on law abiding citizens.

#4) Different rules for different folks? In this case, officers of the law (current or retired) dont have to follow the same process as other folks. Again, clearly unconstitutional.

The entire time this legislation is trying to be passed by the left Wing of our nation, the same people are involved in violent riots, attacking police and ICE Agents, storming buildings, attacking churches, holding retail stores (target) hostage, etc etc etc.

Thank you for saying "NO" to this ridiculous attempt at stifling our rights.
