Measure, Appointment or Topic:

HB4145

I am an Oregon resident and voted for Measure 114 and await it's full activation. Gun violence must be reduced. As a retired kindergarten teacher, I have heard children worry about buns - and their awarness of guns in their homes - frightening stories from five year old children! Close the Charleston loophole and the permit to purchase requirement should be in effect now! HB 4145 must pass this session , there is no time to waste!
