House Committee On Transportation

Measure, Appointment or Topic:

HB4007

I support HB 4007. As an avid bicyclist and e-bicyclist I have experienced first hand the danger and frightening behavior of kids on super-fast unregulated e-bikes. This bill will help law enforcement limit the distribution of these super-fast bikes and help parents understand what they are buying. It will help poorer people who are driven by economic pressures to buy cheap counterfeit bikes which they have to store inside, not having garages, and which are prone to fire. Thank you.
